

**QUESTIONS AND RESPONSES**

**Number 17**

17. In L.3(b)(4), the RFP asks the Offeror to identify a list of incumbent subcontracts that it may want to have assigned if available and state that DOE will provide the list on the solicitation web site. Thus far we have not located the list on the website. Is the list not yet posted or is it available in a different location? Please provide further direction on where to access this information. Thank you.

**Answer:** There are currently two subcontracts of the incumbent Contractor posted on the "Contracts" link of the Reference Documents section of the solicitation web site: one subcontract for security services and one subcontract for records management/storage. These two subcontracts have been made available as they cover significant ongoing aspects of the work scope defined in the Performance Work Statement. A list of the other subcontracts of the incumbent Contractor over \$200K (based on FY2005 data) or those repeatedly used has been posted under the "Contracts" link in the Reference Documents subsection of the solicitation web site ([http://www.emcbc.doe.gov/wvdp\\_seb](http://www.emcbc.doe.gov/wvdp_seb)).
